

## **McGregor Boulevard Roadway and Drainage Improvements Project**

**Construction Update week of February 18, 2018**  
**Changes shown in red**

The City of Fort Myers is replacing storm drainage on McGregor Boulevard from Colonial Boulevard to Poinciana Avenue. In addition to replacing the existing pipes, the project will resurface the roadway, replace sidewalk where disturbed by pipe replacement, replace some signage, and update crosswalks with new striping and Americans with Disabilities Act (ADA) accommodations. The final product will not change the “look” of McGregor Boulevard as it is today. The speed limit on McGregor Boulevard has been temporarily reduced to 25 mph in the work zone.

### **McGregor Boulevard**

**Beginning Sunday, February 18, crews will final stripe McGregor Boulevard during the nighttime/overnight hours of 8 p.m. to 5 a.m. The striping is expected to take approximately five (5) nights to complete and the work will generally start at Manuels Drive and progress south to Colonial Boulevard.**

Motorists should expect one lane open to traffic on McGregor Boulevard. Lane closures will be limited to the areas the contractors will be actively working in. Traffic will be maintained in both directions. Flaggers will alternate traffic directions frequently, but motorists can expect some delays depending on traffic volume.

Motorists should expect traffic shifts on McGregor Boulevard from Manuels Drive to Colonial Boulevard.

Some sidewalks may be closed within the project area and pedestrians and bicyclists may be detoured. **This schedule may be subject to change due to inclement weather.** Drivers, bicyclists and pedestrians should use caution.
