

# McGregor Boulevard Roadway and Drainage Improvements Project Public Workshop about Landscape Medians

*November 2017*

On Thursday, November 16, 2017, the City is hosting a public workshop to provide information and gather public input regarding eight (8) landscape median locations and five (5) previously existing landscape medians to be re-constructed on McGregor Boulevard from Poinciana Avenue to Colonial Boulevard. This workshop will allow the community to view the median locations being evaluated, ask questions and provide public input.

The five (5) previously existing medians that will be re-constructed are located between the following streets:

- Caloosa Drive and Grace Avenue
- Wales Drive and Sunbury Drive
- Jefferson Avenue and Burtwood Drive
- Vesper Drive and Meadow Park Lane
- Carlene Avenue and Biltmore Drive

Additionally, the City has been asked to evaluate eight (8) new landscape median locations between the following streets:

- Lynwood Avenue and Cordova Avenue
- Cordova Avenue and Linhart Avenue
- Alcazar Avenue and Alhambra Drive
- Coconut Drive and Coconut Court
- Maravilla Avenue and Hanton Avenue
- Florida Avenue and Gasparilla Drive
- Fort Myers Country Club north entrance and Shadow Lane
- Arthur Avenue and Morningside Drive

The City of Fort Myers is currently replacing storm drainage on McGregor Boulevard from Poinciana Avenue to Colonial Boulevard. In addition to replacing the existing pipes, the project will resurface the roadway, replace sidewalk where disturbed by pipe replacement, replace some signage, and update crosswalks with new striping and Americans with Disabilities Act (ADA) accommodations.

**November 16, 2017 Public Workshop About  
Landscape Medians on McGregor Boulevard**  
(Please see back for details.)

**Don't miss this very important meeting about landscape medians on McGregor Boulevard!**
